EDUCATION

- **RCC Institute of Information Technology (RCCIIT)** — Kolkata, WB, India
  Bachelor of Technology in Computer Science and Engineering — *October 2022 - June 2026*
- **Class XII (CBSE, 2022): 91.6% , Class X (ICSE, 2020): 97.8%**:

SKILLS SUMMARY

- **Languages**: Java, Python, C, JavaScript
- **Libraries and Frameworks**: ReactJS, TailwindCSS
- **Tools and Platforms**: GitHub, HTML5, CSS3, VS Code
- **Databases**: MongoDB, MySQL

WORK EXPERIENCE

- **Software Programming Intern Infomaticae Technology Pvt. Ltd. — Feb 2025 – May 2025**:
  Contributed to software programming projects applying core concepts in real-world development.
  Collaborated with team members to develop applications and enhance functionality. Demonstrated debugging,
  and adaptability in diverse tasks.

PROJECTS

- **FIND MY BOOK NOW — Link**:

  Find My Nook Now is a book discovery website that lets users search for books, preview them via Google
  Books, and access direct buy links from Amazon and Flipkart thereby also letting the user compare prices.
  Built using HTML, CSS, and ReactJS, it features a clean interface. The project highlights frontend
  development skills, API integration, and user-centric design aimed at making book discovery easier and more
  engaging.

  Tech Stack: **ReactJS** , **HTML** , **TailwindCSS** . **GitHub Repository**

- **BLINK COMPRESS — Link**:

  Blink Compress is a web-based tool for efficient image processing, featuring image-to-PDF conversion and
  image compression. It offers a responsive, user-friendly interface with smooth navigation. The project
  highlights skills in frontend development and responsive design, delivering creative, real-world solutions for
  optimizing image storage, sharing, and document compilation.

  Tech Stack: **Javascript** , **HTML** , **TailwindCSS** . **GitHub Repository**

- **GROUPLANCER — Link**:

  Grouplanceis a collaborative platform for beginner programmers, enabling group-based hackathons, task
  management, rankings, chat, and video calls. Designed to foster teamwork and interactive learning, it
  supports skill development and productivity. Future plans include tools for startup management, expanding
  its use beyond learning to organizational collaboration.

  Tech Stack: **ReactJS**, **NodeJS**, **ExpressJS**, **MongoDB** , **TailwindCSS** . **GitHub Repository**

HONORS / AWARDS / ACHIEVEMENTS

- **Python (Basic) Certificate (HackerRank)**: Verified problem-solving and logic skills.
- **Java (Basic) Certificate (HackerRank)**: Validated OOP and core Java proficiency.
- **Smart India Hackathon Participation**: Built a website with React.js, gaining frontend experience.
